# THE ORTIZ FAMILY

*A story of dedication and achievement stretching over several generations*

## HISTORY

### SINCE 1915 ...

*The charcuterie tradition of our family  
goes back 1915*

We are located in La Rioja, centre of a very traditional charcuterie and meat industry. At Embutidos Ortiz we want to move this tradition to the flavour of what we do.

### TO THIS DAY

*From our new central plant in Navarrete we  
want to support our legacy*

The previous generations of our family have transmitted us the core values that still define us: professionalism, simplicity and know-how.

---

## **“ORTIZ FAMILY: AN EMBLEM OF TASTE WITH TRADITION”**

---

*Our international expansion has been consolidated  
thanks to our constant work*

Embutidos Ortiz was one of the first SMEs from La Rioja in obtaining the homologations to export charcuterie products from La Rioja to countries such as Japan, Argentina, Chile, Brazil or New Zealand.

TODAY, JUST LIKE YESTERDAY

## NATURAL EVOLUTION

Our evolution supports the traditional production from our origins, with natural ingredients, but adapted to new trends.

Our products are Gluten free and are a **Source of Protein**. We have the **More Natural** range (without allergens) and **100% Natural** (with natural ingredients, with neither allergens nor additives). We elaborate our chorizo without artificial colourings.

*Our range is divided into:*

- 1. CURED MEAT** Easy both to buy and to eat. Ideal for appetisers and meetings and, of course, for your favourite sandwich.
- 2. SLICED MEAT** Packaging which guarantees correct preservation without losing the freshness of a recently cut product.
- 3. BARBAQUE** Consumption with the aim of having fun and to be enjoyed with company. The perfect accompaniment to homemade stews and alfresco getaways.

# QUALITY FOR ALL

---

**Natural ingredients, traditional  
production and the maximum control  
during the whole process.**

QUALITY AND INNOVATION

## NEW TIMES, NEW FLAVORS ...

*Our service of Quality adapts to the new guarantees and to the new consumption needs*

In Embutidos Ortiz everything has been conceived for people and their consumption habits. The old, and the new ones. We want to preserve the tradition at the same time as we search for new flavors, new presentations and new products that raise interest of the entire family.

## ... THE SAME COMMITMENT

*We guarantee the quality and the food safety in all our control and production processes*

We do not forget that our work is aimed at ensuring the quality and traceability of the whole production process. From the pork farm, up to the shop. To this end, we maximize control the animal welfare, the legality and the safety and food hygiene. It is the future of the meat industry and of a family-run business as Embutidos Ortiz.
